

VICTORY TRADE.

NEWS AND NEW PRODUCTS FOR THE MEAT PROCESSING INDUSTRY.

SAFETY HANDLE OPTIONS

New to VictoryKnives, the 112S, 113S & 212S handles have been designed for safety in the workplace with an extended finger guard to limit "run-through".

NEW KNIVES

Two new additions to the Victory range, these knives have been developed in conjunction with processing plants. Many workers were found to be grinding tips off for certain applications on the chain. The Round Tip Skinning and Boning knives come shaped and ready to go to work without time being lost by re shaping and grinding knives.

ROUND TIP SKINNING KNIFE

13cm blade

2 301 13 200

ROUND TIP BONING KNIFE

13cm blade

2 731 13 200

PROGRIP™ HANDLE RANGE NOW AVAILABLE ON 500 & 600 SERIES KNIVES

Progrid™ is now available on our popular 500 & 600 series knives.

2 600 22 200

Progrid™ now comes in a wider range of colours to suit the desired application, different handles are often used for shift change demarcation and to separate knives in added value applications e.g. Pericardium and Placenta.

FLÜGEL STEELS

VictoryKnives has released a new range of Commercial and Professional steels, ranging from Medium, Fine, Super Fine and Polished. Our new Professional range of steels also feature three handle options to suit the users needs.
